BIMETAL CABLE LUG

Application:

Used for transition connection of aluminium cable or aluminium alloy cable with copper end of electrical equipment in medium voltage, from 16 to 300 mm²

Material: Al ≥ 99.5%, Cu ≥ 99.9%

Feature:
• Oil blocking structure
• Friction welded
• Clear markings on barrel to indicate correct crimping location, together with Melec standard crimping die.

Standard: DIN 46235
