

## SUSPENSION CLAMP

### Application:

Used to hang low voltage aerial cables on poles with insulated neutral messenger.

### Material:

Made of corrosion resistant aluminium alloy with high mechanical strength, weather resistant and anti-UV material.

### Feature:

- Neutral messenger is placed in the groove and locked by binding bolt equipped with wing nut.
- Easy installation, without any additional tools.
- No loose parts could fall off during installation.

**Standard:** EN 50483-3, NF C 33-040

Type	Conductor Size (mm <sup>2</sup> )	Failure Load(kN)	Pack (PCS)
